

京都大学ワンストップ創薬拠点 創薬セミナー

Tetrahydroisoquinoline Antitumor Alkaloids:

Total Synthesis, Mechanism of Action and Biosynthesis

Prof. Robert M. Williams

(Department of Chemistry, Colorado State University)

Prof. Williams is the outstanding leading researcher in the area of total synthesis of natural products. In this special lecture, he will present his recent and established results in natural product chemistry focusing on tetrahydroisoquinoline.

Please enjoy his chemistry in Kyoto University!

日時: 2013年1月15日(火) 16時00分～17時30分

会場: 薬学研究科教育棟1階マルチメディア講義室

連絡先: 薬学研究科薬品有機製造学分野(藤井・大野)
