

2nd Annual
Conference
of the
International
Chemical
Biology Society

ICBS2013

7–9 October 2013

Shirankaikan
Kyoto, Japan

Join this international forum for cutting edge research in chemical biology, including innovations and resources to improve human health.

Keynote lectures by:

James Wells,

University of California at San Francisco, USA

**“Challenging Targets for
Chemical Biologists”**

Shuh Narumiya,

Kyoto University, Japan

**“Academia-Industry Alliance
for Drug Discovery and Development;
Challenge and Experience
of Kyoto University”**

Confirmed Invited Speakers

Huw Davies | Yasuteru Urano | Weiliang Zhu | Jürgen Bajorath

Ron Quinn | Hiroyuki Osada | Zixin Deng

Seung Bum Park | David Nes | Motonari Uesugi | Laurent Meijer

Pamela Lochhead | Babak Javid | Shudong Wang | Paul Bauer

Tanya Parish | Bahne Stechmann | Mei Lin Go

Zhong-Yin Zhang | Guillaume Lessene | Linghua Meng

Session Topics

- Global Natural Product Resources: Unique Features, Collaboration Models and Success Stories
- Cutting Edge Medicinal Chemistry and Tool Compounds
- Chemical Imaging
- Chemical Systems Biology/ Chemoinformatics and Modeling
- Phenotypic Screening, Target Identification and Associated Novel Technologies
- Chemical Biology Outside of Drug Discovery
- Role of Kinases in Chemical Genetics
- Neglected Diseases and Global Health
- Industry-Academic-Government Interaction in Drug Discovery (Panel Discussion)
- Chemical Approaches for Translational Sciences
- Pre-Meeting Course on Chemical Biology and Drug Discovery Technologies with Drs. Terry Riss, Yuhong Du, Doug Auld, Jonathan Baell, Hakim Djaballah, and Koji Kawakami

Plus...a special session “Global Rising Stars of Chemical Biology,” posters, poster flashtalks, awards and networking events

**Organized by the International Chemical Biology Society in partnership
with Japanese Society for Chemical Biology**

Local Conference Organizing Committee

Chair:

Masatoshi Hagiwara, *Kyoto University, Japan*

Co-Chair:

Lixin Zhang, *Chinese Academy of Sciences, China*

Jonathan Baell, *Monash University, Australia*

Nobutaka Fujii, *Kyoto University, Japan*

Mei Lin Go, *National University of Singapore, Singapore*

Linghua Meng, *Chinese Academy of Sciences, China*

Tetsuo Nagano, *University of Tokyo, Japan*

Hiroyuki Osada, *Riken, Japan*

Seung Bum Park, *Seoul National University, South Korea*

Siddhartha Roy, *Indian Institute of Chemical Biology, India*

Motonari Uesugi, *Kyoto University, Japan*

Network with leaders in the field and form new collaborations.
